**(1 point) What is the **lowest** grade your group will be satisfied with?**

**89**

**(1 point) Our agreed time-management strategy will be to:**

c. work right up to the deadlines

**(4 points) Describe how you will handle your team leadership.** i.e. - will you have a leader and if so, who? Will you rotate this responsibility and if so, how do you plan to do so? Will each person take a turn or will it be rotated among only a few people?

We will have a leader to help guide us through meetings and help make decisions for the team if there is a split vote. We will be roasted between everyone.

**(4 points) How do you plan to handle the situation if someone does not meet expectations? Has everyone agreed to this strategy?**

The leader for that project date will talk to them and see why they didn't meet expectations and if the person wants to share why to the whole group, the whole group will help see how the problem can be fixed. The person whose work needs to be picked up that week will need to provide more the next week.
